

Ashish Prakash Wani

Manual Tester | Software Quality Assurance

ashishwani808@gmail.com | 9082895713 | <https://www.linkedin.com/in/ashish-wani-49b238211/>

Professional Summary

Detail-oriented Manual Tester with 3 years of experience in ensuring high-quality software delivery by identifying defects early and improving overall product reliability. Strong expertise in designing and executing comprehensive manual test cases, resulting in reduced post-release defects and improved user satisfaction. Experienced in collaborating with developers, product managers, and stakeholders to identify, track, and resolve critical issues before production releases using tools such as JIRA, Click up and Excel.

Key Achievements

- Identified, documented, and tracked 120+ critical and high-severity defects using JIRA, resulting in a 30% reduction in post-release defects.
- Improved test coverage by 40% through designing detailed and reusable manual test cases aligned with business requirements.
- Reduced test cycle time by 5 days by collaborating with cross-functional teams and optimizing test execution processes.
- Enhanced product stability and user satisfaction through thorough regression, smoke, sanity, and exploratory testing.

Skills

Manual Testing, Test Case Design, Functional Testing, Regression Testing, Smoke & Sanity Testing, Exploratory Testing, UAT, Defect Tracking (JIRA), Test Documentation, Excel, Automation Testing, Confluence, Attention to Detail, Communication, Problem-Solving, AI

Professional Experience

Quality Assurance Engineer

Hyplap IT Solution Pvt. Ltd. Mumbai

June 2025 – Present

- Conducting end-to-end manual testing for web-based applications across multiple modules.
- Creating and executing comprehensive test cases to ensure complete functional coverage.
- Tracking and managing defects using JIRA and coordinating with development teams for timely resolution.
- Participating in requirement analysis, sprint planning, and review meetings in Agile environments.
- Improving test coverage and contributing to reduction of production issues through effective testing practices.

Quality Assurance Engineer

Hindustan Times (HT Media Labs – OTT), Mumbai

February 2023 – May 2025

- Performed manual testing for OTT and digital media platforms ensuring seamless user experience across devices.
- Designed and executed detailed test cases based on functional and business requirements.
- Identified, logged, and tracked defects using JIRA with clear reproduction steps and severity levels.
- Collaborated with developers, product owners, and stakeholders to resolve critical issues before release.
- Performed regression, smoke, sanity, and UAT testing for multiple releases.
- Maintained test documentation including test plans, execution reports, and defect metrics.
